Health, Safety, Quality & Environment

Quality of life is governed by concerns for health, safety and environment of our employees, our clients and our society. Work safety is not only a priority it is a value, and from the top to down we take our values seriously.

The GPCCC considers these to be of utmost importance in its entire works, the company ensures that all employees adhere to safety measures and practices. Appropriate gear and tools are used to ensure the safety of employees working in all areas.

From upper management to our newest employee we continue to train and update our work safety program ensuring the protection of our team and clients. Our commitment to our employees and clients alike continues to grow in promoting safety and health.

Company ownership and the board of directors throughout our entire team, work safety is a value that will not be compromised.

Our record is living proof that we will continue to do our best at preventing unforeseen incidents that we all know can cause an immense amount of suffering and loss.

All engineering design – particularly of Substations, towers caters to the safety aspect of all future users. These include proper railings, rest platforms, ladders, ladder supports, lightning protection, earthing/ grounding, aircraft warning lights, etc.

In addition, the company provides insurance cover for all vehicles and property owned by the company, and caters to workmen's compensation. All debris from construction sites is disposed-off in a proper manner so as not to damage the environment in any way.

Health, Safety, Quality & Environment

Any metal parts that are unused or made unusable are then recycled through proper scrap dealers.

Precaution is taken against polluting underground water resources, and all wastewater is disposed-off in a proper manner through sewage treatment. We hope that our small efforts will have some impact in educating the masses for a cleaner and healthier environment.

Competence, technical capability, professional and careful management of works, have allowed us to improve competitivenessand satisfy CUSTOMERS.
